

NEWS RELEASE

Air Mauritius resumes its normal schedules to Europe

Air Mauritius is pleased to announce that the airline is resuming its normal schedules to Europe after the disruptions of the last few days. Twenty-one flights have been operated during the last six days clearing all the back log which had accumulated since the start of the crisis on the 15th of April.

Manoj R K Ujoodha, G.O.S.K, CEO of the airline said "These last few days have been particularly challenging as the airline coped with this unprecedented crisis. Our team members worked round the clock to ensure we keep abreast of the developments so that we resume operations as quickly as possible. My special gratitude goes to all those who burnt their midnight candle to ensure the operations get back to normal. We would also like to thank our customers who showed a lot of patience and understanding as we did our best to reschedule their flights with the least possible delays. My thanks also go to the airport authorities, our suppliers, and our travel and tourism partners worldwide for their support."

26 April 2010

Air Mauritius is the national carrier of the Republic of Mauritius in the Indian Ocean. Created in 1967, it currently operates a fleet of four A340-300, two A340-300E, two A330-200, two A319-100 and two ATR72-500.
